Temporary/Preliminary NMs

Source: Sandwich Port and Haven Commissioners

1. The entrance to the channel leading into Sandwich Haven and Richborough Port has migrated south.
2. The beacons marking the channel have been replaced by buoys and relocated.
3. The entrance is marked by a safe water buoy, LFl.10s, in position 51° 18’ ·532N., 1° 23’ ·320E.
4. Mariners are advised to navigate with caution in the area and consult the local port authorities for the latest information.
5. These and other changes will be included in the next New Edition of Chart 1827 to be published in late 2019. Chart 1828 will be updated at next New Edition.(ETRS89 DATUM)

Notices to Mariners - Weekly Edition 51/2019 International Chart Series,
England - South Coast, Dover.

Chart SC5605-14 WGS84 DATUM
The following changes were published in the new edition of chart 1698, which is the source chart for the above folio sheet:

Includes depths from the latest Dover Harbour Authority surveys and developments to the Western Docks. Mariners should therefore navigate with caution on sheet SC5605-14 and be aware that any subsequent Notices to Mariners applied to this sheet are issued for information only.
These changes will be included in the next new edition of SC5605.

---

Chart SC5605-15 WGS84 DATUM
The following changes were published in the new edition of chart 1827, which is the source chart for the above folio sheet:

*Includes significant safety-related information as follows: changes to depths and the port entrance channel. Mariners should therefore navigate with caution on sheet SC5605-15 and be aware that any subsequent Notices to Mariners applied to this sheet are issued for information only.*

These changes will be included in the next new edition of SC5605.

---

Charts SC5605-11 and SC5605-12 WGS84 DATUM
The following changes were published in the new edition of chart 1872, which is the source chart for the above folio sheets:

*Includes significant safety-related information as follows: new submarine cables. (A modified reproduction of Chart D11 published by Belgium). Mariners should therefore navigate with caution on sheets SC5605-11 and SC5605-12 and be aware that any subsequent Notices to Mariners applied to these sheets are issued for information only.*

These changes will be included in the next new edition of SC5605.

---

Charts SC5605-8 and SC5605-9 WGS84 DATUM
The following changes were published in the new edition of chart 1828, which is the source chart for the above folio sheets:
Includes changes to depths from the latest British Government and Port of Ramsgate Surveys. Mariners should therefore navigate with caution on sheets SC5605·8 and SC5605·9 and be aware that any subsequent Notices to Mariners applied to these sheets are issued for information only.

These changes will be included in the next new edition of SC5605.

51° 21' ·60N., 3° 14' ·20E.
51° 21' ·35N., 3° 13' ·97E.
51° 21' ·09N., 3° 13' ·60E.

6. Mariners are advised to navigate with caution in the area.

7. These changes will be included in New Editions of Charts 1872, 1873 and 1874 to be published mid 2020.

8. Charts 2449 and 1630 will be updated by Notice to Mariners.

(WGS84 DATUM)

Charts affected – SC5605

Chart SC5605·10 WGS84 DATUM
The following changes were published in the new edition of chart 323, which is the source chart for the above folio sheet:

Includes changes to depths from the latest British Government surveys. Mariners should therefore navigate with caution on sheet SC5605·10 and be aware that any subsequent Notices to Mariners applied to this sheet are issued for information only.

These changes will be included in the next new edition of SC5605.

legend, Harbour Limit, along NW side of: (b)-(c) above

Charts SC5605·11 and SC5605·12 WGS84 DATUM
The following changes were published in the new edition of chart 1872, which is the source chart for the above folio sheets:

Includes significant safety-related information as follows: changes to marine reserves, restricted areas and mine laying practice areas. (A modified reproduction of Chart D11 published by Belgium). Mariners should therefore navigate with caution on sheets SC5605·11 and SC5605·12 and be aware that any subsequent Notices to Mariners applied to these sheets are issued for information only.

These changes will be included in the next new edition of SC5605.
The Notices to Mariners (NMs) listed below apply to the previous edition of SC5605 (13th Edition) published on [23rd March 2017].

The 13th Edition of this product dated 23rd March has been withdrawn and superseded by a New Edition of the same title. Navigational and safety related changes have been incorporated in the New Edition. It must be fully understood that use of the information attached will enable the updating of the 14th edition to the point at which it was withdrawn [23rd January 2020] It is strongly recommended that the latest available edition of the product should be used.

50° 59' 61N., 1° 54' 89E. (Walde tower)
50° 59' 03N., 1° 54' 89E. (shore)

2. Dunkerque VTS operates in the area bounded by the following positions:

51° 00' 59N., 2° 07' 10E. (shore)
3. A waiting area, B1 (Gas tankers), is bounded by the following positions:

51° 00' ·95N , 1° 42' ·32E.
51° 01' ·30N , 1° 42' ·84E.
51° 01' ·30N , 1° 45' ·84E.
51° 00' ·00N , 1° 45' ·84E. (RCW light-buoy)
50° 59' ·95N , 1° 44' ·12E.

4. The limits of the Calais access channel have been amended as follows:

50° 58' ·15N , 1° 45' ·67E. (CA2 light-buoy)
50° 58' ·38N , 1° 48' ·64E. (CA4 light-buoy)
50° 58' ·74N , 1° 50' ·46E.
50° 58' ·39N , 1° 50' ·46E. (East Jetty head light)
50° 58' ·25N , 1° 50' ·40E. (West Jetty head light)
50° 57' ·65N , 1° 46' ·11E. (CA1 light-buoy)

5. These changes will be included in the next New Editions of Charts 323, 1892, 1872 and 1873. (WGS84 Datum)

Charts affected SC5605
1. To improve safety of navigation, reduce the risk of marine environment pollution and the planned development of wind farm sites in the area between traffic separation schemes of West Hinder, North Hinder and Maas West, new and amended IMO adopted routeing measures come into force at 0000 UTC 1 June 2017.

2. “Off the Netherlands and Belgian coasts between West Hinder, North Hinder and Maas West traffic separation schemes”, new and amended schemes are to be established as follows:
   a. The north-eastern end of the TSS “North Hinder South” will be shortened and the precautionary area “North Hinder Junction” will be extended to join the TSS.
   b. A new traffic separation scheme “Off North Hinder” will be established east of TSS “North Hinder South” adjoining the precautionary area “North Hinder Junction”.
   c. The eastbound traffic lane of TSS “Maas West Outer” will be amended.
   d. A new precautionary area “At Gootebank” will be established north of Deep Water route “In the Approaches to the River Scheldt”.
   e. The TSS “At West Hinder” will be shortened and the precautionary area “At West Hinder” will be extended to join the TSS.
   f. A new precautionary area “Windfarm Borssele” will be established north-east of the existing precautionary area “In the vicinity of Thornton and Bligh Banks”.
   g. A new Area to be Avoided “Windfarm Borssele Pass” will be established through the precautionary area “Windfarm Borssele” for traffic under 45m in length.

3. To regulate traffic northbound and southbound east of the precautionary area “Windfarm Borssele”, new routeing measures are to be established as follows:
   a. A new precautionary area “Schouwenbank Junction” will be established. This precautionary area is connected via a two-way route “Schouwenbank NW” to precautionary area “North Hinder Junction”; via a two-way route “Schouwenbank NE” to precautionary area “Maas Junction”; via a two-way route “Westpit” to precautionary area “At Gootebank” and via a two-way route “Schouwenbank SE” to the channel “Oostgat”.
   b. The anchorage area “Schouwenbank” will be adjusted according to the new two-way route “Schouwenbank NE”.

4. Details of all the above changes are shown on the accompanying diagram.

5. In addition to the above changes, radio reporting points, buoyage and anchorages will be amended and repositioned. The details of these changes will be published in the relevant NLHO and UKHO Publications.

6. Details of the routeing measures will be included in New Editions of Charts 110, 1406, 1630, 1872, 1873, 1874, and 2449 to be published in April 2017. These charts will be published with a cautionary note advising mariners that the existing charts, which will be given an “X” prefix, should be retained and used until 0000 UTC 1 June 2017. A New Edition of Chart 8012 will be published in June 2017. Charts 122, 1408, 2182A and 5500 will be updated by Notice to Mariners. Note: Mariners are advised that this is a significant change to IMO routeing in the West Hinder, North Hinder and Maas West area. Mariner’s should familiarise themselves with these changes and ensure that they have all necessary chart and publication updates in advance of the implementation date.
Charts affected – SC5605, SC5606, SC5607 and SC5614

L4087(P)/17 ENGLAND — East Coast — Thames Estuary — Traffic separation scheme.
Source: International Maritime Organization (IMO)

1. To improve the safety of navigation in the Approaches to the Thames Estuary, the International Maritime Organization (IMO) has approved the modification of the Long Sand Head two-way route and the SUNK Inner Precautionary Area in the existing Traffic Separation Scheme ‘In the SUNK area and in the Northern approaches to the Thames Estuary’. These changes will be implemented at 0000hrs UTC on 1 January 2018.

2. The limits of the two-way route and Precautionary Area are to be extended northwards to route traffic away from the shallow banks of Long Sand Head. These banks are surveyed and monitored on a regular basis and have been found to be migrating north-eastwards.

3. The details of the amended scheme are shown in the accompanying diagram.

4. These amendments will be included in a New Edition of Chart 2692 to be published November 2017. This chart will be published with a cautionary note advising mariners that the existing chart, which will be given an ‘X’ prefix, should be retained and used until 0000hrs UTC on 1 January 2018. Charts 1975, 1183, 1610, 1406 and 8157 will be updated by Notice to Mariners. All ENCs affected will be updated at 0000hrs on 1 January 2018.
