</table>

6. An east cardinal light buoy, BLW-E Q(3)10s, and racon, Mo(D), has been established in position 51° 41’·30N, 2° 50’·56E. * Indicates new or revised entry. (All positions are referred to WGS84 Datum)

7. Mariners are advised to navigate with caution in the area.

8. Former Notice L1621(T)/13 is cancelled.

Charts affected—SC5606 & SC5607
1. As part of the environmental monitoring campaign in connection with the London Gateway project, monitoring equipment (some marked by light-buoys, Fl.Y, and some by unlit buoys) has been deployed in Gravesend Reach, Lower Hope Reach, Mucking Flats, Sea Reach, Maplin Sands and Oaze, within an area bounded by the following positions (WGS84 Datum):

- 51° 26'·5N., 0° 22'·0E.
- 51° 34'·0N., 0° 22'·0E.
- 51° 34'·0N., 0° 59'·0E.
- 51° 26'·5N., 0° 59'·0E.

2. *The monitoring equipment and associated buoyage will remain in position until early 2014.*

3. For information and positions of the monitoring equipment mariners are advised to consult the Port of London Authority website (www.pla.co.uk) for Notices to Mariners. Some monitoring equipment will be relocated to new sites at monthly intervals. Information on position changes can be obtained from London VTS and will be broadcast on VHF channels 68 and 69.

4. Frequent survey operations will take place in this region for the duration of the deployment.

5. Mariners are advised to navigate with caution in the above areas.* Indicates new or revised entry.

6. Former Notice L3218(T)/12 is cancelled.

Replace note DESIGINATED ANCHORAGE AREAS with

DESIGNATED ANCHORAGE AREAS
Vessels requiring to wait at anchor must do so only in the designated anchorage areas. Within these areas, mariners are requested to use the anchor berths. Vessels may not anchor in a fairway except in an emergency or for the purpose of manoeuvring. Anchor berths K3 (51°30´·4N 1°04´·0E), W1 (51°30´·9N 0°55´·9E) and W2 (51°31´·2N 0°57´·1E) are reserved for vessels nominated by London VTS. For further details, see Admiralty List of Radio Signals.

The following changes were published in the new edition of chart 1827, which is the source chart for the above folio sheets:

Includes significant safety-related information as follows: changes to depths in Ramsgate Harbour from the latest harbour authority surveys. Mariners should therefore navigate with caution on sheets SC5606·10 and SC5606·11 and be aware that any subsequent Notices to Mariners applied to these sheets are issued for information only.

These changes will be included in the next new edition of SC5606.

Temporary/Preliminary NMs
L765(P)/17 NORTH SEA — Belgium to Netherlands — Routeing measures.
Area to be avoided. Anchorage area.
Source: International Maritime Organization

1. To improve safety of navigation, reduce the risk of marine environment pollution and the planned development of wind farm sites in the area between traffic separation schemes of
West Hinder, North Hinder and Maas West, new and amended IMO adopted routeing
measures come into force at 0000 UTC 1 June 2017.

2. “Off the Netherlands and Belgian coasts between West Hinder, North Hinder and Maas
West traffic separation schemes”, new and amended schemes are to be established as
follows:

a. The north-eastern end of the TSS “North Hinder South” will be shortened and the
precautionary area “North Hinder Junction” will be extended to join the TSS.
b. A new traffic separation scheme “Off North Hinder” will be established east of TSS “North Hinder South”
joining the precautionary area “North Hinder Junction”.
c. The eastbound traffic lane of TSS “Maas West Outer” will be amended.
d. A new precautionary area “At Gootebank” will be
established north of Deep Water route “In the Approaches to the River Scheldt”.
e. The TSS “At West Hinder” will be shortened and the precautionary area “At West Hinder” will be
extended to join the TSS.
f. A new precautionary area “Windfarm Borssele” will be established
north-east of the existing precautionary area “In the vicinity of Thornton and Bligh Banks”.
g. A new Area to be Avoided “Windfarm Borssele Pass” will be established through the
precautionary area “Windfarm Borssele” for traffic under 45m in length.

3. To regulate traffic northbound and southbound east of the precautionary area “Windfarm Borssele”, new routeing measures are to be established as follows:

a. A new precautionary area “Schouwenbank Junction” will be established. This precautionary area is
connected via a two-way route “Schouwenbank NW” to precautionary area “North Hinder
Junction”; via a two-way route “Schouwenbank NE” to precautionary area “Maas Junction”;
via a two-way route “Westpit” to precautionary area “At Gootebank” and via a two-way route
“Schouwenbank SE” to the channel “Oostgat”.
b. The anchorage area “Schouwenbank” will be adjusted according to the new two-way route “Schouwenbank NE”.

4. Details of all the above changes are shown on the accompanying diagram.

5. In addition to the above changes, radio reporting points, buoyage and anchorages will be
amended and repositioned. The details of these changes will be published in the relevant
NLHO and UKHO Publications.

6. Details of the routeing measures will be included in New Editions of Charts 110, 1406, 1630,
1872, 1873, 1874, and 2449 to be published in April 2017. These charts will be published with
a cautionary note advising mariners that the existing charts, which will be given an “X” prefix,
should be retained and used until 0000 UTC 1 June 2017. A New Edition of Chart 8012 will
be published in June 2017. Charts 122, 1408, 2182A and 5500 will be updated by Notice to
Mariners.

Note: Mariners are advised that this is a significant change to IMO routeing in the
West Hinder, North Hinder and Maas West area. Mariners should familiarise themselves with
these changes and ensure that they have all necessary chart and publication updates in advance
of the implementation date.

Charts affected – SC5605, SC5606, SC5607 and SC5614

Temporary/Preliminary NMs
L4087(P)/17 ENGLAND — East Coast — Thames Estuary — Traffic separation scheme.
Source: International Maritime Organization (IMO)

1. To improve the safety of navigation in the Approaches to the Thames Estuary, the International Maritime Organization (IMO) has approved the modification of the Long Sand Head two-way route and the SUNK Inner Precautionary Area in the existing Traffic Separation Scheme ‘In the SUNK area and in the Northern approaches to the Thames Estuary’. These changes will be implemented at 0000hrs UTC on 1 January 2018.
2. The limits of the two-way route and Precautionary Area are to be extended northwards to route traffic away from the shallow banks of Long Sand Head. These banks are surveyed and monitored on a regular basis and have been found to be migrating north-eastwards.
3. The details of the amended scheme are shown in the accompanying diagram.
4. These amendments will be included in a New Edition of Chart 2692 to be published November 2017. This chart will be published with a cautionary note advising mariners that the existing chart, which will be given an ‘X’ prefix, should be retained and used until 0000hrs UTC on 1 January 2018. Charts 1975, 1183, 1610, 1406 and 8157 will be updated by Notice to Mariners. All ENCs affected will be updated at 0000hrs on 1 January 2018.

Chart SC5606·2 WGS84 DATUM
The following changes were published in the new edition of chart 1183, which is the source chart for the above folio sheet.
Includes changes to depths from the latest British Government and Port of London Authority Surveys. Mariners should therefore navigate with caution on sheets SC5606·2 and be aware that any subsequent Notices to Mariners applied to this sheet are issued for information only.

These changes will be included in the next new edition of SC5606.
