EGC MSI BROADCASTS
NAVAREAS VII and VIII
RÉUNION, MAYOTTE and
KERGUELEN ISLANDS
COASTAL NAVIGATIONAL WARNING
AREAS

KEY:

- - - - - Limit of NAVAREAs VII and VIII
- - - - - Coverage Area for Coastal Navigational Warnings

Forecasts and warnings are for areas not covered by NAVTEX.
For broadcast schedule please refer to EGC MSI
Broadcast System table.

Vessels **must** ensure that their EGC receiver is configured to
receive messages from the coastal warning area appropriate
to their intended voyage. The letters D, K or V, as depicted on
this diagram, must be pre-selected by the operator. Full
instructions on this procedure can be found in the manuals
supplied by the MES manufacturers.
