
EGC MSI BROADCASTS NAV/METAREAS X and XIV
NEW CALEDONIA,
WALLIS & FUTUNA and FRENCH POLYNESIA
COASTAL NAVIGATIONAL WARNINGS AREAS

KEY:

Limit of NAVAREA XIV

Limits of Coastal Navigational Warnings Areas

Forecasts and warnings are for areas not covered by NAVTEX. For broadcast schedule please refer to EGC MSI Broadcast system table.

Vessels **must** ensure that their EGC receiver is configured to receive messages from the coastal warning area appropriate to their intended voyage. The letters D, N or R, as depicted on this diagram, must be pre-selected by the operator. Full instructions on this procedure can be found in the manuals supplied by the MES manufacturers.
